The Daily Sentinel.

JOSIAH TURNER, Jr., EDITOR.

THE WHIMS OF APPETITE.

We are told by a foreign journal the custom of frog eating in France seems to date from the end of the fifteenth century.—Champier, writing in 1504, complains of the strange taste of the people who eat frogs, and cannot conceive how persons of decency can eat "insects" bred in marshes and stagnant ponds. "I have seen the time in which people eat only frogs' thighs, but now they actually eat the whole body, except the head; and, moreover, serve them fried with a little parsley." Yet that the practice was not universal we gather from Palissy, who, in his "Treat se on Stone," says:—"It is a thing that one sees every day now, that men eat articles which formerly no one would have eaten for anything in the world. In my time I have known when you could have found very few men who could have eaten either tortoise or frogs."

The custom like that of eating beavers, and that great delicacy, their big flat tails, probably took its rise in the desire of the lasting, or non flesh eating monks, to get something as like flesh as possible; and they, therefore, always reckoned amphibious animals as fish not flesh. In like manner, though certain, monks would not eat pork, they flavored their vegetables with lard, and many monasteries kept pigs for this purpose. Other monasteries got so far as to eat hashed meat, saying that when meat was so disguised it was no longer meat. Gregory the Ninth condemned this artifice in the Constitution he gave to the Benedictines, and declared that not only was meat forbidden to them, but also sauces and stuffing made of meat. We thought "tongue a comparatively modern dish but there is a full recipe for roasting and saucing it," in the curious "Liber Cure Cocorum," of about 1460, A. D., edited by Mr. Richard Morris; and Le Grand d'Aussy, in his "History of the Home Life of the French," informs us that that there are extant several charters of the twelfth century, in which the French lords reserve, as a rent from butcher's domiciled on their estates, the tongues of all the oxen killed by the said butchers. Have the readers ever asked themselves why their dinner knives, or rather those of their grandfathers, are and were made round at the point? M. Le Grand d'Aussy will tell them. He finds the first mention of the forks in an inventory of Charles the Fifth's plate in 1379 A. D., "quarante-trois cuilleres et four chettes (gold and jewelled,") and says that "apparently up to that time, when men began to use forks, the knife was employed to convey pieces cut off into the mouth; just as the English do now (A. D. 1782,) who have for this purpose knives whose blade is round and very large at the end." But, as "fingers were made before forks," so were they before knives; and there is no doubt that, in the middle ages in England, fingers, and not knives, were the tools for putting solids into the mouth. Is it known when milk and sugar were first used with tea in England? Was it before the French use of them in 1680, when Madame de Sevigne noticed the Marquise de la Sabliere's invention of the custom? 1687 a French doctor, Begny notices that some people smoked tea like others did tobacco, while he had made of it a preserve, a distilled water, two sorts of syrup and a febrifuge. Lemonade was sold publicly in Paris in 1630, and its makers were formed into a guild in 1676, with the exclusive right of selling lemonade; Punch was borrowed from England by the French late in the eighteenth century; but says Le Grand d'Aussy, as the ladies do not like the strong scent that the brandy in punch leaves behind, the drink can never succeed in France, a gallant nation whose first act and only pleasure is to please *les femmes*. But gallantry notwithstanding, *ponche* is still to be had in France.

LOCKJAW CURED BY TOBACCO.

A writer in the Scientific American gives an instance of the cure of tetanus or lockjaw by an application of tobacco on the pit of the stomach. A soldier had been wounded in the foot, and having taken cold in it tetanus ensued. The major of the 10th Indiana cavalry, of whose regiment the soldier was a member, casually learned his condition, and as it was a case of life or death anyhow, (or rather certain death,) he resolved to try an experiment and save him if possible. The man had the lockjaw more than forty hours; they had no medicine along, (useless if they had,) and the major's only resource was a plug of navy tobacco.

He cut off a square of it (of about three inches square) put it in a mess pan with boiling water until it was hot through, and saturated with the water; taking it out he allowed it to cool, so as not to blister, then flattening it out, he placed it on the pit of the man's stomach. In about five minutes the patient turned white around the lips, which also began to twitch—the man was getting very sick—and in nine or ten minutes the rigid muscles relaxed and his jaws fell open. Indeed, it seemed as if the patient would fall all apart and go to pieces, so utterly was his muscular system relaxed. The tobacco was immediately removed and some whiskey gruel given to stimulate him. Next day the man was taken along in an ambulance, and in a few days mounted his horse all right, as bold a "sager boy" as any. So much for a dead man.

It seems necessary in this disease to produce nausea, or sickness of the stomach, to cause the rigid muscles to relax. It is very difficult, to almost impossible to administer internal medicines, and some external application become necessary to produce nausea, and this is furnished by the tobacco. The major found afterwards that damp tobacco applied to any part of the body would produce sickness, but much more quickly, of course, when applied to the stomach.

The editor of the Scientific American, in commenting on the above case, remarks that the remedy proposed is one of great power, and would need to be used with extreme caution, to avoid fatally nicotizing the patient.

The black tongue among cattle rages with great fury in Tallapoosa, Clay and some parts of Elmore counties, Alabama.

The planters of Louisiana evince a disposition to hold on to their cotton if prices go much lower.

DOTY'S WASHING MACHINE,

LATELY MUCH IMPROVED,

AND THE NEW

UNIVERSAL CLOTHES WRINGER.

Improved with BOWELL'S PATENT DOUBLE COGWHEELS, and the PATENT STOP, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. L. Scott, Bishop M. E. Church*

"It is worth one dollar a week in any family."—*N. Y. Tribune.*

"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention."—*Rev. Theodore L. Ozgier.*

"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Bellows.*

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*

"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our machine,' after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances."—*Solon Robinson.*

"Your Washing Machine has been in daily use in our laundry and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work, with less labor, and does not wear the clothes near so much as the old fashioned wash-board. By using it one laundress is dispensed with."—*Wm. M. F. Round, Superintendent of Infant Department of St. Catherine's Nursery, N. Y. City.*

PRICES.—A Fair Offer.

Send the retail price Washer $14, Extra Wringer $9, and we will forward either or both machines, free of freight, to places where no one is selling; and we are sure we they will be liked, that we agree to refund the money if any one wishes to return the machines, free of freight, after a month's trial, according to directions.

No husband, father or brother should permit the drudgery of washing with the hands, fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer, and a Universal Wringer.

Canvassers with exclusive right of sale make money fast selling them.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

SATURDAY, OCTOBER 2, 1869.

"RADICAL FINANCIERING!—RADICAL RUIN!

The Scriptures teach us how to make good impressions on the mind of perverse humanity—"line upon line; precept upon precept; here a little and there a little."—It is in deference to this wise moral precept that we reiterate facts that ought to be remembered particularly by the people of North Carolina at this time, while every bale of cotton they bring to market has a plug taken out of it as big as a flour barrel, and sometimes the whole bale, to pay the tax levied to support Radical extravagance.

The "loil" Legislature, in the interest of the "Ring" undertook, and, so far as they were able, succeeded, to increase the State debt to the enormous sum of $26,970,000. (Remember, this is in addition to the old State debt, which was, in round numbers, 14,000,000, making the whole debt over *forty millions*.) The Treasurer says, that, of this sum, $10,670,000 is *void*, because the acts appropriating the same are unconstitutional. He says the Legislature did increase the debt, for *corporations, alias* "the Ring," to the sum of $16,300,000. The bonds of the State will realize for them, in cash, not exceeding the sum of $5,433,330, less the *stealage* of manipulators of the money, and the "Ring;" thus leaving $10,866,666 of bonds of the State outstanding, for which the people *get nothing—not a single cent!* But the *whole sum* must be paid, *by the people*, so the Radicals say, *principal and interest!* The little financial operation for the ruin of the people, and for the benefit of the "Ring," stand thus:

Whole amount attempted to be appropriated by the Legislature,	$26,970,000
From this deduct the amount which the Treasurer says is unconstitutional,	10,670,000
This leaves,	$16,300,000
This last is worth in cash, (Go'd)	5,433,334
Deduct and it leaves,	$10,866,666

For this last sum of ten millions, eight hundred and sixty six thousand, six hundred and sixty six dollars, the State *does not now, and never will, get one cent!*

The truth of these figures and deductions, are incontrovertible! The statement is fairly made, and the result is what we state it to be, warp and twist the matter as you may.

What do the people of all classes think of such financiering? What do tax payers, (who have been required during the last two or three weeks, to sell even the bread and meat from their families to raise money to pay it,) think of it? What do farmers and mechanics and all intelligent working men of all trades and classes, think of it? Can they stand it? Will they stand it?

Can there be any public confidence or substantial prosperity among the people, or for for the State, while our finances are so manipulated? Will capital or label seek investment among a people whose rulers thus manage to put them in debt and then grind them into powder with taxation!

Let the people consider, too, that the pittance realized on that appalling sum in bonds of the State, is not devoted to legitimate purposes, but mainly to enrich "carpet-baggers," and "the Ring," *alias* the *Stealing Society*.

Hence, we say, "*Radical financiering—Radical ruin.*" Have we not said correctly?

THE LEGISLATURE WILL NOT HOLD OVER FOUR YEARS.

In another column will be found an able and interesting article on the inquiry, "Will the Legislature hold over for four years?" This article was received some days ago, but we could not find room for it until to day. But every body read and consider it. It is from the pen of a highly respectable Republican gentlemen, but one who is not a Radical. His views are logical and unanswerable.

But we had not supposed that any one was so absurd in his notions, as to seriously think that the present Legislature would offer to attempt to hold over for four years. The idea is preposterous. Such action on the part of the Legislature would be an act of revolution; any act passed by it, after its term had expired according to the limitation of the Constitution, would be *void and void*; and the members of the Legislature would have no more right to sit as a Legislature than any other hundred and seventy men in the State, and if these men were to undertake to assemble for the purpose of Legislating, they ought to be dissolved by force. We do not hesitate to declare that we would advise that they be dissolved by force, if this end could not be accomplished by other lawful means. We repeat; such conduct on the part of the present Legislature would be an act of *revolution* and would produce immediate anarchy, if not war.

But we do not believe the Legislature will seriously think of such a thing; it could accomplish nothing; it could pass no laws and no practical end could be attained; it could only *revolutionize* the State Government and place the offenders in a fair way to pay the penalty of such a crime with their necks. We understand that some one mentioned the matter in the presence of the Chief Justice, Pearson, and others of the Judges of the Supreme Court, and that the Chief Justice spoke of it as a matter too absurd to think about.

No; the leprous concern, dignified with the name of a Legislature, will not hold over for four years. Bad and corrupt as are many of its members, they will not try so dangerous an undertaking as that.

For the Sentinel.

WILL THE LEGISLATURE HOLD OVER FOR FOUR YEARS?

It was broadly intimated by leading spirits in the dominant party, during the late session of the Legislature, that that body would declare itself elected for four years, instead of two, and that it would continue to make laws, levy taxes, elect United States Senators, and perform the other high functions belonging to the General Assembly under the Constitution, until the year of grace, 1872. It may be that these disinterested friends of popular rights will not take it amiss if a private citizen should venture, through the press, to remind them of those Constitutional provisions which constitute the tenure of their power, and to point out to them the consequences of their proposed usurpation. With this friendly purpose in view, I beg leave to call their attention, through your columns, to the following clauses of the new Constitution of North Carolina, framed by themselves, and ratified by a large majority of the voters:

Section 3d, of Article II, is in these words: "The Senate shall be composed of fifty Senators *biennially* chosen by ballot."

Section VI, is as follows:

"The House of Representatives shall be composed of one hundred and twenty Representatives, *biennially* chosen by ballot," &c.

The 29th Section is as follows:

"The election for members of the General Assembly shall be held for the respective districts, and counties, at the places where they are now held, or may be directed hereafter to be held, in such manner as may be prescribed by law, *on the first Thursday in August, in the year one thousand eight hundred and seventy*, and every two years there after. But the General Assembly may change the time of holding the election.—The first election shall be held when the vote shall be taken on the ratification of this constitution by the voters of the State, and the General Assembly then elected shall meet on the fifteenth day after the approval thereof by the Congress of the United States, if it fall not on a Sunday, but it it shall so fall, then on the next day there after; *and the members then elected shall hold their seats until their successors are elected at a regular election.*"

It thus appears that the Legislature is to be elected *biennially*, that the first *regular* election is to take place on the "*first Thursday in August, in the year one thousand eight hundred and seventy*," and that the legislature now in being which was elected in April 1868, at an *irregular* election, "shall hold their seats until their successors are elected at *a regular election*;" viz: until the above named first Thursday in August, one thousand, eight hundred and seventy.

The framers of our Constitution will not be regarded by posterity as masters of style in composition, but it is due to them to say, that, in this instance at least, they have made themselves well understood. I undertake to say that honest minds can have no two opinions in the premises, and that it will be a dangerous experiment for the present legislators to attempt holding over longer than the two years and three or four months for which they were elected.

It is said that the friends of the proposed usurpation base their claims to a four year's lease of power on the *twenty seventh* section of article II. It is as follows:

"The terms of office for Senators and members of the House of Representatives shall commence at the time of their election; and the term of office, of those elected at the first election held under this Constitution, shall terminate at the same time as if they had been elected at the first ensuing regular election."

It is pretended that this section confers upon the members of the present Legislature the right to hold over as if they were elected on the first Thursday in August, 1870; that being, as is assumed, the period for the "first regular election." But if that day should become, in fact, as the Constitution requires, the first regular election, and if the present body should, as is proposed, hold over, the result will be, that we shall have *two Legislatures* in being at one and the same time. On the other hand, if, in consequence of the holding over of the present body, no election should, in fact, be held on the first Thursday in August, 1870, that will not be what the supposition of those who claim an extension of time, the "first regular election;" and there will be the same pretense for holding over six years, that now exists for four. At the end of six years the same difficulty would exist, the same want of "a regular election" to date from—and our fortunate legislators, elected in April, 1868, would be in a fair way to become life members, if not hereditary lords over the people.

I have thus briefly traced the theory on which this proposed impudent usurpation is based, to its logical consequences. It results in a perpetual legislative body, independent of the people, and responsible to no one but to themselves for their conduct. It is obvious that by the "first ensuing election" is meant the first Thursday in August 1868. This section is less explicit than the others to which I have drawn attention; but it is not inconsistent with them, and cannot be so construed as to overthrow the biennial character of the Legislature, nor to take away from the people the right of holding an election on the first Thursday of August 1870, which is explicitly given in the 29th section.

The newspaper Press should warn all parties concerned, that whoever conspires, aids, or abets in this high handed measure, will be guilty of the crime of treasonable usurpation and will subject himself to condign punishment for the same. To usurp legislative powers by a body of men whose term of office has expired, is to overturn the State Constitution and Government; and the parties to the nefarious scheme may take warning, that a day of reckoning will come sooner or later. The people may submit to be cheated of their rights for two years, (though that is more than doubtful), but they will at the end of that time regain the control of the State in all its departments; and then, woe to the criminal usurpers! There will be no hiding place for them in North Carolina, nor in the United States. Traitors to the State are traitors to the Union, and they will be "delivered up," on the demand of the Governor, if to be found anywhere, in any State or Territory of the Republic.

The overthrow of a State Government by legislative and executive usurpation is parallel with the overthrow of a monarchy by the dethronement and decapitation of the King; and since we borrow our laws from England, our would-be tyrants will do well to study that period of English history which followed the restoration of Charles II. Whatever may have been the crimes of the first Charles, (and I believe the people had a right to dethrone him,) the Rump Parliament, consisting of about forty members, after the expulsion of the majority at the point of the bayonet, had no right to behead him. Thirteen years later they were brought to trial, condemned and executed for their crime; and their plea that they acted with the authority of the Parliament availed them nothing. The court held that the usurpation of the Parliament was of itself treason; and subsequently it was held that the Parliament was dissolved by the death of the King, and that all its acts thereafter were acts of usurpation, without reference to the treason of the members who voted for the decapitation of the King.

In like manner, in this State, any attempt of a Legislative body to hold over beyond the constitutional limit of two years, would be usurpation and treason.

Yours, A REPUBLICAN.

APPEAL OF THE "WAKE MEMORIAL ASSOCIATION."

Animated by a pious and loving thought, the ladies of Raleigh, on the 10th day of May, 1866,—the third anniversary of the day that closed the grand life of Stonewall Jackson,—formed themselves into the patriotic Sisterhood, known as the "Wake Memorial Association." The designation bespoke our object,—a determination to collect all that was mortal of such of our Southern heroes, who fell or died during the civil war, as were sleeping in unmarked and widely-scattered graves in and around our city, into one consecrated spot, which it should be our constant care to beautify and adorn.

Through the delicate and timely liberality of Henry Mordecai, Esq., of this city, a suitable spot of ground, in the suburbs of Raleigh, was at once placed at the disposal of the Association, and the work of its interment and transfer was so actively and zealously prosecuted, that, in a few months, it was complete. What was *then a forest* was, in a twelve month, converted into a beautiful repository of the Dead. From time to time since, as the seasons have been propitious, the "labor of love" has been unceasingly carried on. The grounds have been improved and decorated with evergreens, shrubbery and flowers,—the graves turfed and fitly marked,—suitable head-boards constructed,—grassy mounds made,—and such other appropriate ornamentation attempted as individual or united effort might accomplish. We point, to day, with pride and satisfaction, to our Cemetery, as one worthy, in some slight measure, at least, of the memory of the gallant sons of the South, who "rest under the shade of the trees," within its secluded precincts.

All of this most expensive work—but most *grateful* work,—has been the result of our own efforts and of means of our own diligent making, with almost the single exception, that the patriotic Legislature of our State of 1866-'7 voted a gratuity of $1,500 to assist our endeavors. And of that appropriation about $600 remain unexpended,—having been reserved to be devoted, so far as the amount will go, to the crowning purpose which we have had in view from the beginning, viz: The erection of a memorial shaft, which shall rise far above all surrounding objects, and stand a lasting monument of our grati ude and our affection,—and not of *ours* only, but of *all* who admire courage, endurance and misfortune, accompanied by loftiness of soul, of aim and of action!

But this amount, of course, is utterly inadequate to the plan we have cherished.—What is to be done at all should be *well* done. Our duties to the *living* let us discharge; yet in all ages, and in all countries, it has justly been esteemed the perfection of public virtue, to commemorate deeds of high emprize and to perpetuate the fame of departed heroes, by tablet, obelisk or other memorial device. In this exhibition of public virtue, shame to surviving *kindred*, if *they* be lacking!

The ladies of the Wake Memorial Association pledge themselves, by their own exertions, to keep the grounds of the Cemetery in good condition, and, with each recurring anniversary of the 10th of May, to crown with floral honors, as has been their custom, the graves of our dead. But they appeal to the people of the State at large to aid them in the erection of this Monument. It is designed to speak for NORTH CAROLINA,—not for *us*, alone. *Her* children,—these, alike, who came, at *her* summons, from mountain fastness and from sea-girt shore,—have been the objects of our care, and it is for them, *all*, that we design to raise the memorial stone.

Not yet for *them, alone*. Almost every State of the South is mournfully represented in our "City of the Dead." Will not the people of the other States, lately composing the Southern Confederacy, assist in this heart-undertaking of ours? To doubt it would be to undo our faith in the generous, *filial* impulses of the Southern heart!

The passions engendered by the war have, happily, well-nigh subsided. It is a most fitting time, then, to consummate our labors. Yes, we may now come, with subdued emotions and chastened feelings, to the graves of our dead, and claim honor for their memories, admiration for their deeds, justice to their motives, and appreciation of their noble sacrifice. Until *this* time, studiously and of purpose, we have deferred this appeal.

North Carolinians! Sisters! Sons! This our appeal is before you. WHAT SHALL BE YOUR RESPONSE?

It is earnestly requested that the Press will give general currency to this address. In the other States it is hoped that the Press will suggest the volunteering of ladies or gentlemen to ask subscriptions for this "Memorial Monument," to be erected, at the Capital of North Carolina, in honor of the "Heroes of the South."

Contributions can be forwarded to Miss SOPHIA PARTRIDGE, Secretary of the Ladies Memorial Association, Raleigh, N. C.

The colored voters, for the first time, voted in large numbers for the conservative ticket.

One of the most interesting papers in *Putnam's* is a contribution from the publisher himself, who gives a few pleasant pages of anecdotes and letters of well-known authors—Prescott, Cooper, Paulding, Poe, Margaret Fuller, and others—from which we copy this about Poe:

"Some years after, when my desk was in Broadway, in separate quarters, a gentleman with a somewhat nervous and excited manner claimed attention on a subject which he said was of the highest importance.—Seated at my desk, and looking at me a full minute with his 'glittering eye,' he at length said 'I am Mr. Poe.' I was 'all ear,' of course, and intensely interested. It was the author of 'The Raven' and of 'The Gold Bug.' 'I hardly know, said the poet, after a pause, 'how to begin what I have to say. It is a matter of profound importance.'—After another pause, the poet seeming to be in a tremor of excitement, he at length went on to say that the publication he had to propose was of momentous interest.—Newton's discovery of gravitation was a mere incident compared to the discoveries revealed in this book. It would at once command such universal and intense attention that the publisher might give up all other enterprises, and stake this one book the business of his life time. An edition of 50,000 copies might be sufficient to begin with but it would be but a small beginning. No other scientific event in the history of the world approached in importance the original developments of this book. All this and more, not in irony or jest, but in *intense* earnest, for he held me with his eye, like the ancient mariner. I was really impressed, but not overcome. Promising a decision on Monday (it was late Saturday P. M.), the poet had to rest so long in uncertainty about the *extent* of the edition—partly reconciled by a small loan mean while. We *did* venture, not upon 50,000, but 500. This little book of 'great expectations' was simply 'Eureka, a new Theory of the Universe,' which Mr. Poe had read as a lecture to a small audience at the Society Library. A Southern magazine, 'The Nineteenth Century,' gave recently a high estimate of the theory or discovery announced in 'Eureka,' but it has never, apparently, caused any profound interest either to popular or scientific readers."

The story of Cinderella is familiar to every one, and yet there are few that treasure it up as in any respect true. But it has a foundation and a reality that really need no fairy godmother, with her pumpkin and her rats, to make an entertaining tale. It is as follows:

'In about the year 1730, a French actor by the name of Thevenard lived in Paris.—He was rich and talented but he had no wife, and we may believe he had never loved any one, but gave all his affection to those ideal characters that he could represent so finely on the stage. One day as he was walking leisurely along the streets of Paris, he came upon a cobbler's stall, and his eye was attracted by a dainty little shoe which lay there waiting for repairs. His imagination began immediately to form the little foot that must fit such a little shoe. He examined it well, but only to admire it more and more. He went to the stall of the cobbler again but could learn nothing with regard to the owner of the shoe. This only increased his eagerness, and made him more determined to know to whom it belonged. Day by day he was disappointed, but he was not discouraged. At last the little foot needed the little shoe, and Thevenard met the owner, a poor girl, whose parents belonged to the humblest class.—But the ardent actor thought not of caste or family. His heart had already pronounced the little one his wife. He married the girl, with no question of what people would say, and felt joy enough in hearing the tread of the light, nimble feet through his silent rooms, to pay him for the sacrifice of people's approval. This is the true story of Cinderella, and from which the child-romance sprang."

2nd. One tract, known as the Home tract, on the North side of Tar River and East side of Stony Creek, on which intestate died and devised to him by the late Richard Harrison, and covered by the widow's dower, containing 126 acres, more or less.

3rd One tract lying in Edgecombe County on the North side of Tar River, and on both sides of the W. & W. Railroad, known as the Little Falls Plantation, devised to intestate by the late Richard Harrison, and containing 1,200 acres, more or less—1,098 acres of which are covered by the widow's dower, and 202 acres in the pine timber are unincumbered.

4th. One tract in Edgecombe County, lying on the W. & W. R. R., a small portion being in Nash County, adjoining Dempsey Travathan and others and purchased by intestate from Willie Burrus and containing 253 acres, more or less.

At Louisburg, Franklin County, N. C.,

Before the Court House door, on THURSDAY, the 4th day of NOVEMBER next, I will sell the Plantation known as Spring Hill, lying on the North side of Tar River, and within one mile of the town of Louisburg, purchased by intestate from Messrs. Skinner, and containing 668 acres, more or less.

At the Court House Door in Newbern, N. C., on Tuesday, Nov. 9th, 1869,

I will sell a tract of Land, lying in Craven County on the East fork of Slocumb's Creek, and on Lake Ellis, being the divided interest of intestate in the lands purchased from the Donnell family by J. F. Speight, K. H Lewis and W. F. Lewis and containing 4,000 acres, more or less. Also, at the same time and place, I will sell the undivided one-third interest of my intestate in about 12,000 acres, more or less lying in the Counties of Craven, Carteret and Jones, purchased by the same parties from the Donnell family.

TERMS:—One fourth of the purchase money will be required in Cash. The remainder on the 1st day of January, 1871, with interest from the 1st day of January, 1870. The title will be withheld until the whole of the purchase money is paid.

GLASS SPECTACLES,

Superior to any other in use—constructed in accordance with the science and philosophy of nature, in the peculiar form of

A CONCAVE CONVEX ELLIPSIS,

Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,

SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of these Spectacles over all others are:

1. **They can be worn with perfect ease** for any length of time at one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. **How to select Glasses. It requires** professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. **When the eyes ache or pain through** the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing, or vivid colored bodies; these lenses, by softening the rays effect a most agreeable sensation and give great relief.

4. **These spectacles are scientifically** adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work, or premature decay, by Dr Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. **After several years of public practice** adjusting spectacles to patients under every aspect of defective vision, as well as experience in an extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.

6. **M. Bernhardt, to signalize himself** from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most unquestionable respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have used his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names or certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Opthalmic talent in Raleigh, N. C., and in the Union.

Raleigh, Aug 24, 1869.

I have carefully examined Prof. Bernhardt's Spectacles, and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read, or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.

CHAS. E. JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr. M. Bernhart are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendation which he has received from gentlemen of science, and high character, in various parts of our country.

WM. G. HILL, M. D.

Raleigh, N. C., Aug 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.

Very respectfully,
F. J. HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.

W. H McKEE, M. D.

Raleigh, Aug 25, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.

R. S. MASON, D. D.,
Pastor Prot. Episcopal Church.

Raleigh, Aug. 23, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of Spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is most complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved.

DRURY LACY, D. D.,
Late Pres't. of Davidson College, N. C.

Raleigh, Aug. 26, 1869.

It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhardt. To those who need artificial aid for their vision he will be of the highest service.

J. M. ATKINSON,
Pastor of the Presbyterian Church.

EXECUTIVE DEPARTMENT,
Raleigh, March 28, 1868.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public.

JONATHAN WORTH,
Governor of North Carolina.

State of South Carolina,
EXECUTIVE DEPARTMENT,
Columbia, June 19th, 1868.

Sir: I have made a full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facility with which you fitted the glasses to my eyes, furnished me conclusive evidence of your scientific skill in optics and your thorough experience as an Oculist.

Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public. I have the honor to be,

Very respectfully yours,
JAMES L. ORR,
Governor of South Carolina.

Prof. MORRIS BERNHARDT, Charleston, S. C.

Wilmington, March 31, 1868.

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them, and take pleasure in testifying that they enable me to see better than any others that I have used, while in his collection there seem to be some adapted to remedy any kind of defect in vision.

THOMAS ATKINSON,
Bishop of North Carolina.

Nashville, April 27, 1867.

The difference between Dr Bernhardt and most Opticians is, according to my observation, that while they pretend to more than they know, he knows more of his business than he professes.

W. K. BOWLING, M. D.

Testimonials similar to the above may be seen at Dr. Bernhardt's office, from the most reliable and well-known gentlemen of the United States, among whom are:

NEW ADVERTISEMENTS.—We briefly call attention to new advertisements to-day, as follows:

Extensive land sales in Edgecombe, Franklin, Craven, Carteret and other Counties.

M. L. Mosely, at Fentress' old stand, offers a splendid and varied assortment of Confectioneries, &c.

J. Brown, with Hart & Lewis, seasonable and useful household articles, but what some of them are, is beyond our ken.

J. M. Towles, auctioneer, offers a chance for a small fortune, besides a fine milk cow and a wagon and various minor, but useful articles.

See the announcement of salt, full, heavy Liverpool sacks, by O. G. Parsley, Wilmington.

JUSTICE ADAMS' COURT.—Ki. Cross, (colored, was up on a warrant sued out by John Lloyd, a Granville man, on a charge of stealing a keg of whiskey from his wagon, on Thursday night, but the evidence was not sufficient to connect Ki. with the disappearance of the keg, and the case was dismissed at plaintiff's cost.

THE N. C. STATE FAIR will be held in Raleigh, commencing on Tuesday, October 19th, and continue Wednesday, Thursday and Friday, 20th, 21st and 22nd.

The Fair of the Central Agricultural Society will be held at Henderson, on the R. & G. Railroad, on the 12th, 13th, 14th and 15th of October.

The Fair of the Cape Fear Agricultural Association will be held at Wilmington, on the 16th, 17th, 18th and 19th of November.

Our exchanges, especially in Virginia, will please notice the above, as some misapprehension exists, we are informed, in regard to the dates of the Fairs in this State.

MAYOR'S COURT.—During the Mayor's illness, several minor cases have accumulated, but none worth going back two or three days after. On yesterday (Friday) John Lane, colored, was up for having in his possession a bag of lint cotton, supposed to have been stolen. But Miles Edmundson and Fanny Edmundson testified that they had given him the Cotton, at Maj. Wilder's farm. But the bag containing it had Mr. W. H. Holleman's mark on it, so His Honor held the whole party, defendant and witnesses to answer at Court.

James Hinton, colored, charged by Ellen McWilliams, colored, with making an assault on her with intent to commit rape, on Monday night last. In default of bail, Jim went to jail.

Lawton Swain, colored, charged with stabbing Ellen Brewer, colored, (no relation to the Professor,) was bound over to appear at Court next week, in a bond of $200.

TRAIN DELAYED.—The train on the R. & G. Railroad was delayed a little behind its schedule time, owing to the breaking of an axle, a few miles this side of Weldon, on yesterday. No one was hurt, and, notwithstanding the delay caused by the accident, the train arrived in time to secure the connection with the train going west on the North Carolina Road.

THE Semi Annual meeting of the Ladies' Memorial Association will be held at the Lecture Room of the Presbyterian Church, on Monday, October 4th, at 4½ o'clock, P. M. A full attendance of all members is requested. By order of

MRS. L. O'B. BRANCH, Pres.
MISS S. A. PARTRIDGE, Sec'y.

BUILDING AND LOAN ASSOCIATION.—This Association held the regular monthly meeting yesterday (Friday) evening.—Nearly all dues paid up. The following redemption of shares were made:

E. B. Thomas	3	"	"	129
J. M. Harris	4	"	"	129
P. Snipes	1	"	"	129

J. M. Harris	2	"	"	130
E. R. McGowan	1	"	"	130
John Armstrong	3	"	"	131

By sales of these 20 shares, the associations made $1600 in premiums. This is a fair, safe and profitable investment.

THE BASE BALL CLUB was organized at the meeting at the Express Office on Thursday afternoon. The fee for membership was fixed at one dollar.

A committee consisting of Col. W. E. Anderson and Jno. C. Reid, Esq., was appointed to draft a constitution and By-Laws for the Club.

On yesterday, (Friday) afternoon, the Club met for practice in Boylan's field; we have not learned the result.

There is to be another meeting at the Express Office on Monday afternoon, at 4 o'clock.

The Warrenton *Living Present* says "there are over sixty pupils at the Warrenton Female College." We rejoice to hear of this success of Rev. Mr. Jones, the President of the College at Warrenton, he is eminently worthy of it.

We learn, from letters from some of the young ladies there to their friends in this city, that good health prevails among the pupils, and that all are satisfied and happy.

Judge Howard has purchased the plantation of W. Lloyd, near Tarboro', containing 1236 acres, for $25,425.

A WORD FOR THE SENTINEL.

Courts are now being held; the people are called upon for taxes which they are not able to pay. They feel to-day more interest in the political affairs of the State than they have at any time since the surrender; for ours was not only a surrender of our army and arms, but apparently of our manhood and manliness. The late Township elections indicate that the people are fast recovering their manhood and manliness. The *Standard* thanks the "Mummy' Doctor, T. W. Foster, carpet bag member from Bladen, for seventy subscribers; we thank our Rockingham friends for twenty-five new subscribers; and hope our friends elsewhere will follow the good example set by Rockingham, in increasing our subscription list.

THE BOARD OF COMMISSIONERS.—This body held a meeting on Wednesday night. In the absence of the Mayor, caused by sickness, Mr. Buckalan presided.

Mr. Parrish figured extensively. At his suggestion another hole was made to put some hungry office seeker into—the hole is to be called the "office of city Appraiser;" whose business it will be to look at things and give his opinion of their size, shape, color and ponderosity, when there is a dispute about them; but whether this opinion is to be final, in the *face* of opinions that might be entertained by other persons, called in as witnesses, whose opinions on the same subject may happen to differ from that of the man in *hole*, we cannot gather from the "resolution" nor debates thereon.

The other prominent acts of the meeting were, the turning of Oliver Roan out of the police force and putting Bryan Lunn in; but Oliver got a vote of thanks from Dunston for the faithful discharge of his duty; and we are willing to certify that he deserved it.

The meeting also appointed a water committee, of which a member, not much addicted to the use of water, is Chairman. Some new wells were ordered to be built, lamp posts sunk &c.

We suggest to the Clerk of the Board, closer attention to the orthography of the names of members. Albert, the Blacksmith, spells his name with a P, an H, an A, and two Rs, and not *Farrow*, which is a word designating "a litter of pigs," and not by any means to be used in connection with the Board of Commissioners, or any member of it.

P. S. Since writing the above condensed report, we learn that Mr. Thomas Coats, Architect, has received the appointment of Appraiser. We would as soon see Mr. Coats in the *hole* as any body else, if we *must* have such a luxury to pay for.

MEMORIAL MONUMENT.—We direct the especial attention of our readers to the stirring appeal of the ladies of the Wake Memorial Association, which we publish in another column, and commend it to a generous and sympathetic reception at the hands of our people.

For over three years, the fair and patriotic women composing this Society have labored, in season and out of season, to preserve, guard and honor the "sacred ashes" of our heroic dead.

The Cemetery near this city, which has grown into such beautiful perfection under their auspices, is the result of their almost unaided and self-sacrificing exertions.

The language of mere compliment is inadequate to speak their praise. Their work—their noble work—is their eulogy.

We trust that from all parts of the State and of the South, there will be returned to the touching appeal of these our country-women, a liberal and hearty response.—Shame to us, if we forget our kindred dead, or fail in appreciation of the holy work of our ladies of the South.

In behalf of the ladies of the Association, we respectfully ask our exchanges to give the "Appeal" an insertion, and call attention to it.

The great success which has crowned the efforts of Dr. Bernhardt since he has been in our city increases daily, and his office has been crowded during office hours by those desiring to avail themselves of his well known skill. We understand that he will close his office in Raleigh Saturday, Oct. 2nd, and will be at Mrs. Strayhorn's, in Hillsboro' on Tuesday, Wednesday and Thursday, Oct. 5th, 6th and 7th, and we would advised those anxious to consult him to do so as quickly as possible.—The following letter, from one of our most accomplished ladies of Williamsboro', Granville county, N. C., speaks in merited language of the Doctor's skill;

I am using Dr. Bernhardt's glass for near sightedness, with both mental and physical ease. They have opened to me an unknown world of beauty and interest which I would not exchange again for my former darkness for any pecuniary consideration.

LAURA H. GRICE.

Williamsboro', N. C., Sept. 28, 1869.

At a recent meeting in Charlotte, Messrs. C. J. Fox, R. P. Waring, Rufus Barringer, E. A. Osborne, J. L. Morehead, and A. N. M. Taylor were appointed delegates to attend the proposed Railroad meeting to be held at Lancaster, S. C. shortly.

The *Western Sentinel* speaks favorably of the Tobacco in Forsythe and the adjoining counties.

THE LOUISIANA EQUITABLE LIFE INSURANCE COMPANY OF NEW ORLEANS.—This is one of the very best companies in the country. It has the endorsement of Bishop Wilmer, Gens. Beauregard, Hood, Harry Hays and the leading men of New Orleans. General Beauregard says: "Its Officers and Directors have been selected from our most reliable and intelligent citizens.

Instead of sending $40,000,000 annually North, our citizens can find better companies at home.

Joseph Ellison, President, New Orleans Louisiana.

D. H. Hill, Agent, Charlotte, N. C.

A new Boat, called the *North*, has been placed on the river between Wilmington and Fayetteville.

The Charlotte *Times* says, that a company is being formed for the purpose of constructing a street railway through the principal thoroughfares of that city, and that it is probable, the work will be commenced in a short time. Go it Charlotte.

The same paper credits a little "local" of the "SENTINEL'S" entitled "A Singular Cabbage" to the "*Standard*." We suppose, friend Waring being so thoroughly imbued with the opinion that all parties connected with that journal are "cabbage heads" that he naturally attributed the piece in question to them.

OAKWOOD CEMETERY.—The shareholders of Oakwood Cemetery will meet at the office of the Association (Holleman's new building) this afternoon (Saturday) at 5 o'clock. The question of enclosing the lots in the cemetery, will be considered and other business transacted.

SUPERIOR COURT.—The Fall term of the Superior Court for Wake county commences on Monday. Many of our friends in the country have been awaiting this opportunity for renewing their subscriptions and bringing up arrears. We hope, too, to procure additional names to our list; from those who have not hitherto taken the SENTINEL. All such shall be welcome; let each subscriber bring in his neighbor when he calls himself. We'll be glad to see you, gentlemen.

Stealing pork, in Wilmington, as appears from the report of a case in the *Star*, subjects the delinquent to heavy punishment. Jack Cæsar was fined $100 and costs, in Judge Cantwell's Court, on Thursday for disorderly conduct in stealing 13 pounds of pork from the schooner *Kate*.

Two boys from Granville county, calling themselves Doc. and John Fowler, aged about 12 and 14 years, are reported in Newbern in a destitute condition. They say they left Granville because they had neith r father nor mother, and could get nothing to eat.

A new car has been put on the Street railway in Wilmington.

Friday Midnight Dispatches.

WASHINGTON.

WASHINGTON, Oct. 1.—Revenue to-day $295,000. Secretary Fish and Delano have returned.

Fish and Cresswell were absent from the Cabinet meeting to-day.

The Supreme Court convenes on Monday, with a full Bench.

The Commandant of the Asiatic squadron reports health good and American interests flourishing in the Chinese waters.

Delano thinks Geary will be re-elected by a small majority.

The debt statement shows a decrease of seven and a half millions Coin in the Treasury nearly $109,000,000, cur ency 16,500,000.

The steamer "Enterpe" of New York and Galveston line is under surveillance, pending instructions from Washington. She had a cargo of huge Parrot guns; tons upon tons of solid shot and shell. The authorities suspect this cargo is intended to arm the Spanish Gunboats, now ready for sea. The account says, "there are just thirty of these gun boats and singularly enough, there are just thirty Parrots of the one hundred pound calibre found in the hold of the "Enterpe." There were also three thousand solid shot and shell, which had been cast for these same Parrots."

Speaking editorially of the "Enterpe's" detention, the *Tribune* says: "The authorities have just laid hands on a vessel which, by all accounts, appears to have been destined to supply with armaments, the Spanish gun boats at Mystic River. The probability that great harm might have been, and yet may be done thereby to the cause of struggling patriotism, naturally provokes a most earnest desire that no want of vigilance shall permit a wrong to a neighbor, whose comparative weakness and whose noble aspirations, have our hearty sympathies. The plea of the Cubans, that they should have the same right to purchase arms as their savage antagonist, must be admitted, in the light of menacing events, to have unusual force."

Beverly B. Botts is appointed Revenue Collector for the sixth Va. District, in place of Sterling, suspended.

The Telegraph, recently cruising in the West Indian waters is declared a pirate. Poor is ordered to capture her.

The steamer "Hornet is off New York, supposed to be watching gun boats and also to intercept the "Enterpe," which was expected to sail with supplies for the Spaniards. The "Hornet" is daily receiving supplies. Her captain is in New York City, and will be posted regarding Spanish movements, his name is withheld but it is understood that he is a noted Confederate.—The "Hornet" has been fitted out by parties in New York and Boston, who have no connection with the Cuban Junta that has been operating here. The "Hornet" is very formidable and fast.

MARKETS.

NEW YORK Oct. 1st.—Cotton unchanged sales 2 000 bales at 27½; Flour 5 to 10 cents lower; Wheat a cent lower; Corn favors buyers, mixed Western 1,00 to 1,05; Pork firmer at 31 50; Lard steady, Whisky firmer 1.19 to 1.21; Rice firm, Carolina 8 to 9. Sugar ¼ lower; Porto Rico 12½; Muscavado 12 to 12½; other groceries steady; Cotton by steam ¼.

Governments closed firm at 20½; Southerns firmer; Wall street concluded quiet to-day except toward the close, when the stock market was unsettled by rumors of the losses of the Michigan Southern Company by the late panic. No new developments in the Gold question.—Many millions of Friday's contracts were settled to-day and the end of the complications is drawing near.

The money market closed easier at 7 currency to gold; Exchange dull and nominal at 8.—Gold quiet and steady, ranging from 39 to 39¼ closing at 39½. Stocks depressed and unsettled.

BALTIMORE, Oct. 1st—Cotton dull, 27½ to 27½; Flour quiet; Wheat heavy, prime to choice red, 1,40 to 1,47; Corn unsteady, white 1,10 to 1,18, Yellow, 1,16 to 1,20; Pork quiet 33; Bacon firm, shoulders 17½; Lard quiet, 19½ to 20; Whiskey 1,20; Vas. old 45 bid, 46 asked.

WILMINGTON, Oct. 1.—Spirits of Turpentine steady, 39½ to 40; Crude Turpentine unchanged; Tar a shade lower, 2 80; Cotton quiet at 24 to 24½.

LIVERPOOL, Oct. 1.—Cotton closed flat; Uplands 14½; Orleans 13½, sales of 6 000 bales; export and speculation 4 500.

THE UTLEY
COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes: and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring, and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS. H. BRIGGS. All are assured that as between this and any other there is no argument as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

Be Beautiful. If you desire beauty you should use Hagan's Magnolia Balm.

It gives a soft, satin-like texture to the Complexion, removes Roughness, Redness, Blotches, Sunburn, Tan, &c., and adds a tinge of Pearly Bloom to the plainest features. It brings the Bloom of Youth to the fading cheek and changes the rustic Country Girl into a Fashionable City Belle.

In the use of the Magnolia Balm lies the true secret of Beauty. No lady need complain of her Complexion who will invest 75 cents in this delightful article.

And $5,000 ready to pay a loss of No. 34,161, so soon as the party authorized to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

The ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

KNICKERBOCKER,	$16,54
EQUITABLE,	17,44

BROOKLYN,	21,09
UNIVERSAL,	27,94
JOHN HANCOCK,	18,27
THE NATIONAL,	63,48
THE ÆTNA,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It insured more Policies in the United States than any other rate one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 589 policies, received an income of seventy-eight thousand dollars, and possessed total assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 12,327 new policies, more than any other Company except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested total assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

The Daily Sentinel.

For the Sentinel.

At a meeting of the Directors of the North Carolina Real and Personal Estate Agency, held on the 31st day of August last, I was elected President. On the next day a drawing was advertised to take place on the 19th day of November, 1869, and my name published as President. This advertisement was made without consultation with me, and before the affairs of the Company had been looked into. Upon examining into them, I discovered that the assets were not sufficient to justify the announcement, and I immediately called a meeting of the Stockholders for the 16th day of September. At the meeting of the Stockholders on that day, I stated the condition of the affairs of the Company, as well as I could ascertain them from the books as I found them. The following resolutions were therefore adopted:

Resolved, That the President appoint a Committee of three to examine the books and papers of the Company, and ascertain, if possible, what disposition has been made of its funds.

The Committee under the resolution reported that they had not sufficient time for a thorough examination, and offered the following resolution:

Resolved, That the President be directed to employ two competent men to examine thoroughly into the affairs of the Company; to ascertain and report what disposition has been made of its funds; to put its present books into the best possible condition, and to open a new set of books upon such a system as shall secure the affairs of the Company from confusion hereafter.

This was amended so as to allow the President to appoint a third person, to be employed for not more than five days; and thus amended, passed.

The Chairman of the Committee also offered the following:

Resolved, That the thanks of the Stockholders are due, and are hereby tendered to R. G. Lewis, Esq., Treasurer of the Company, for the faithful manner in which he has discharged his duties.

This was adopted, and it was then further

Resolved, That the Board of Directors be requested to make an assessment of three per cent. upon the stock of the Company, to be paid as follows: one per cent. within 15 days, and two per cent. on the 15th of October next.

Resolved, further, That the Stockholders who have already made payments of cash upon their stock, be allowed credit to the amount of such payments, upon this assessment, and if this assessment be not sufficient to meet the liabilities of the Company, the Board of Directors shall increase the assessment until it be sufficient.

Resolved, That the President is hereby requested to acquire into the matter of money paid to J. G. Hester, the late President, at Wilmington, for tickets and stock sold there, and to require the said J. G. Hester to pay said money to the Treasurer, or to account for it.

After the adjournment of the Stockholders, a meeting of the Board of Directors was called for Saturday the 18th inst. At this meeting, the following Directors, with the President attended: Robert G. Lewis, Esq., and Messrs. J. G. Hester, J. C. Hester and Wesley Whitaker. After the proceedings of the Stockholders were read, R. G. Lewis, Esq., offered the following resolution:

Resolved, That an assessment of three per cent. on the stock sold, be made—that one per cent of the same be paid on the 1st of October, one per cent on the 15th of October, and one per cent on the 30th of October.

Resolved, Further, that the Stockholders who have already made payments of cash upon their stock, be allowed credit to amount of such payments, upon this assessment. Mr. J. G Hester moved to amend by striking out all after the words "30th of October," and inserting the following:

Resolved, Further that the provisions of this resolution shall not apply to the stock sold by the late President in Wilmington, upon which 10 per cent was paid." This was accepted by Mr. Lewis, and the resolution, after discussion, passed.

The public can see from this action of the Stockholders, as well as of the Directors, that steps are being taken to raise money sufficient to place the Company upon a sound footing. I assure the public that every proper means in my power, as an individual, and as an officer of the Company, will be resorted to, to put right the affairs of the Company, and save those who have taken tickets from loss. No scheme will be advertised until this is accomplished, and then parties holding tickets can have the option to take money or exchange them for others. I feel a deep personal interest in the getting of the affairs of the Company straight, in addition to the interest I feel as an officer. My name was connected with it as one of the supervisors after the first drawing. While so acting I had no interest in the Company, and my only duty was to see that the drawings were fairly conducted, and I can assure the public that they were.

Very recently, before my election as President, I purchased some stock, but never knew anything of the financial condition of the Company until after my election.

SCHOOL BOOKS.

UNIFORM SYSTEM OF
TEXT-BOOKS
FOR NORTH CAROLINA.

Office Publishers' Sup't of Introduction,
RALEIGH, N. C., Sept. 21, 1869.

A DEPOSITORY has been established at Raleigh, in charge of Mr. Alfred Williams, for the following books, which were adopted Aug 9th, 1869, by the State Board of North Carolina for uniform use in the Public Schools:

PARKER & MONTEITH'S NATIONAL PRIMER.
PARKER & WATSON'S NATIONAL SPELLER.
PARKER & WATSON'S NATIONAL READERS.
DAVIES' ARITHMETICS.
MONTEITH & MCNALLY'S GEOGRAPHIES.
MONTEITH'S YOUTH'S HISTORY OF THE U. S.
BUTLER'S OUTLINE OF PENMANSHIP.

THE NEW DESCRIPTIVE GEOGRAPHY OF NORTH CAROLINA will be ready about the middle of October, prox. The maps, &c., are now being engraved as rapidly as possible. This work will be furnished with Monteith & McNally's Series, without extra charge.

PROF. JEROME ALLEN'S COMPLETE SYSTEM OF MAP DRAWING will also be furnished to the Public schools with Monteith & McNally's Series, without extra charge.

The books will be supplied at exceedingly low rates to the Public Schools in the State.

Similar terms will be made accessible to private schools adopting the above named books uniformly.

Pupils attending the Public Schools will, in accordance with the State contract, be furnished with new copies of Monteith & McNally's Geographies and Davies' Arithmetics in exchange for old copies of Cornell's Geographies and Quackenbos' Arithmetics, which they may possess.

Books will be supplied, carefully packed and shipped, by
ALFRED WILLIAMS,
Depositary, Raleigh, N. C.

Teachers and Educators generally are respectfully invited to correspond with
C. W. LAMBETH,
Agent for the Publishers and Sup't of Introduction.

From Dr. WM. B. HARRELL, Prin. High School, Snow Hill, N. C.:
SNOW HILL, N. C.

"I am much pleased with both the Spellers and all the Readers; and as to the series of Geographies by Monteith & McNally, I have long used no others when these could be obtained.

From Rev. ALBERT SMEDES, D. D., Rector of St. Mary's School, Raleigh, N. C.
RALEIGH, N. C.

I have examined the Geographies—Monteith's [No. 4] and McNally's [No. 5] and find excellencies in both, which eminently entitle them to a wide circulation. It is my purpose to introduce Monteith's [No. 4] into my school. I give it the preference for the information which it gives on the subject of Physical Geography. The maps and questions in both works seem to me to be admirable.
ALDERT SMEDES.

From J. W. GULICK, A. M., Prin. Male Academy, Goldsboro', N. C.:
GOLDSBORO', N. C.

I find your books are in use in many Schools in this section. The teachers speak in the highest terms of your Readers and Geographies, and of Peck's Gamut in particular.
J. W. GULICK.

From Col. WM. BINGHAM, Prin. Bingham School, N. C.:

The introduction of so much valuable matter on the subjects of Physical Geography and Geology and in a form so simple and intelligible, makes it (Monteith's Intermediate Geography) in my judgment, a charming school book.

"We shall introduce Davies' Bourdon, perhaps others of your books."

From Dr. CLOSE, Prin. Durham Academy, N. C.:
DURHAM, N. C.

I design introducing the present session McNally's Geography and Davies' University Arithmetic; also Boyd's Elements of English Composition.
M. CLOSE.

From M. L. LITTLE, Esq., Prin. Pleasant Hill Seminary, Newton, N. C.:

From Rev. S. IVEY, Prin Auburn Academy, N. C.:
AUBURN, N. C.

Monteith's Geographies are excellent works, and I shall introduce them into my school.
STINCEON IVEY.

Prof. WM. A. GRAHAM, writing from Hillsboro' Military Academy, says:

The superior and durable style of binding of your works is a very great recommendation—one with which I have long been favorably impressed.

From J. E. DUGGER, Esq., Prin. Male Academy, Warrenton, N. C.:
WARRENTON N. C.

"Davies' Mathematics" was adopted by me in 1858, and, up to this time, I have examined no works superior to them as a whole.

I have examined, with a view of introduction, 'McNally's Geography' [No. 5] and "Peck's Gamut's Natural Philosophy." I consider them most excellent works, and shall put them in my boys' hands, at the earliest period. The Philosophy is truly an enticing work and must meet with universal commendation.
J. E. DUGGER.

From W. C. KERR, State Geologist of N. C.

I regard Monteith's Physical and Intermediate Geography as one of the best books of its kind. It has several points of superiority over most primary Geographies; not the least of which, especially in the eyes of the juveniles, will be found in its attractive and very graphic illustrations. Another is the truly wonderful amount of substantial and really scientific information conveyed by these wood cuts, and the concise and lucid descriptions appended. But the chief excellence consists in this, that Geography is here treated from the only true and rational standpoint, viz: of Geology and Physical Geography; so that the learner arrives, by a natural and easy process, at the true conception of the earth as an organized whole; the designed result of successive changes and modifications, under the control of physical laws, constituting a true growth from a chaotic germ through manifold stages of progress, all pointing forward to its destined end as the home of living beings, and finally of man.

From Rev. G. D. BERNHEIM, Principal of Mount Amoena Female Seminary, Mount Pleasant, N. C.
MT. PLEASANT, N. C.

I have introduced your National series of Readers with great satisfaction to myself and to our teachers. We find them to be excellent, just suited to our purpose.

With Davies' Mathematical Series we have been long familiar, and can find no good reason for changing them.

In the Primary Department we have Monteith's Geographies, and in the advanced classes we have introduced Peck's Gamut, with much acceptance.
G. D. BERNHEIM.

From Prof. JAS. H. FOY, President Statesburg Scientific High School, N. C.
WILSON, N. C.

I have carefully examined the claims of the different Series of School Books most prominent before the public at this time. I have tested the merits of many of them in the school and lecture room, and feel no hesitancy in pronouncing the "National Series of Readers and Spellers" the best with which I am acquainted. I shall henceforth use no others in my school, and I shall furthermore use my influence to secure their adoption into other Seminaries in this section.

I use Davies' Mathematical Series in my school. I consider his works incomparably superior in many particulars, even to Stoddard's Course, which is saying a great deal. In fact, I consider it the highest encomium in my power to bestow.

I use Monteith's Series in my school. They afford a gradual but thorough and systematic progression, from the simple elements of science, up to a development sufficiently exhaustive for all ordinary educational purposes. Their very superior merit has led me to discard ——— which stands next best on the list.

McNally's, the fifth book of the course is decidedly the *chef d'oeuvre* of Geographies. No competent instructor can examine it for an hour without being struck with its extraordinary merit.
J. H. FOY

From the Statesville, N. C. *American*, February 20th, 1868.

We would call the attention of Teachers in Western North Carolina to the valuable School publications of this firm, which are equal to any in the Union.

Messrs. Barnes & Co., of New York, are now issuing large editions of these Standard School Books for the Southern states. The series consists of the National Primer, or Word Builder, National Elementary Speller, The National First 2nd 3rd, 4th and 5th Readers. This firm will allow no competition in the price of books published by them, which are among the best in the states.

From the Raleigh *Daily Progress*, Feb 20, 1868.

NATIONAL SECOND READER.—We have never examined a volume of its class which we could commend more cordially to parents and teachers.

From the N. C. *Presbyterian*, March 7, 1868.

NATIONAL FIRST READER.—We recommend it to all who desire a valuable book of instruction for beginners.

From the Wilmington, N. C. *Daily Herald*, 1868.

The National Series has attained probably a higher reputation than any other complete series of School Books now in existence.

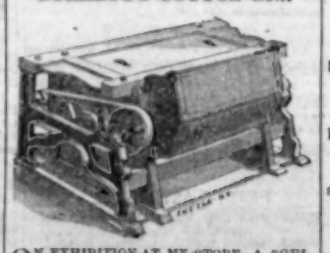
GULLETT'S COTTON GIN.



ON EXHIBITION AT MY STORE, A "GULLETT'S STEEL BRUSH GIN."

The Gin is of a very superior style of workmanship, gins more Cotton in a given time than any Gin of the same number of saws; picks the seed cleaner; leaves no motes or nap; does not waste the lint by throwing it over the walls of the room where it is being ginned; does not cut the lint, but brings it out in beautiful bats.

Planters desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages, over other Gins, named in this advertisement, after fair trial, it will be no sale.
